What's Next?

Let's walk you through the school year. We start with an individual SEP meeting to set goals and do assessments to get a starting point for your student's learning. With COVID-19, all of this took a little longer than usual. From here, your ES will contact you to discuss the results from the assessments. If needed, our specialists will suggest additional interventions to support your student's specific learning needs.

We are dedicated to helping you succeed!
