SUMMER CAMPS - OPEN TO ALL!

CGA and non-CGA students can come learn about and play with animals, space, soil and clay at our exciting summer camp! Unplug and come spend time learning and experiencing in our school farm and gardens, make hand-built and bisque-fired pottery, explore exciting missions around the universe in our Space Center!

Mess-Free Sensory Activities for Kids

The weather during Spring can be a little fickle. However, kids still need to do the "work" of childhood: PLAYING!

Whether inside or outside activities are needed, here are wonderful ideas for mess-free fun! [LINK](#)

GOOGLE REVIEWS ★★★★★

Have you had a great year? Please leave us a stellar (meaning 5 star!) Google review. This really helps our new families know what great things they can expect. Thank you! We look forward to seeing you next year!

Preparing for the End of Year

Please remember to turn in everything that you are finished using so we can check it back in, sterilize it, and get it back on our shelf for check-out. If it is consumable or you will still use it during the summer, you may keep it checked out. (This is for those returning next year.) Also, please be prepared to meet with your Educational Specialist during May so we can make next year's plan.

THANK YOU!

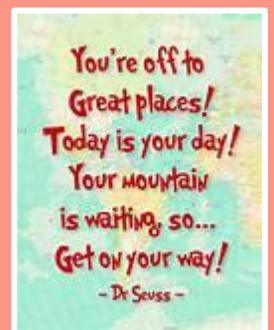

Enrollment

Thank you for telling your friends about Canyon Grove. Most of our locations have a waiting list for next year. We are still looking for more students at the Pleasant Grove campus. We appreciate you spreading the word!

VIRTUAL FIELD TRIPS

We have been updating our virtual fieldtrips. There are a lot of fun[er]pr[am]ce by BYU and other amazing opportunities. Please check out our field trip page on our website for more information! [LINK](#)

Also, next year we are able to hold field trips again! We are very excited for this To return to our program. More information will come Out over the summer as we Hear COVID updates for Fall.

50 Fun Ways to Get from Here to There

Encourage movement, coordination...ban boredom and get creative. These fun ways of movement will help students have fun while they get from here to there!
