

Canyon Thoughts

A Canyon Grove Academy Newsletter April 9th, 2021

Enrollment open NOW! Please invite your friends to come tour Canyon Grove.

READ-A-THON WINNERS!

We have ourselves a winner! Thank you once again for participating and enjoying reading during this month! Our winner is.... PG Thursday! They had the most participation and most minutes per student! Congratulations, and thanks to everyone else who participated in the contest!

Summer Camps

Come learn about and play with animals, space, soil and clay at our exciting summer camp! Unplug and come spend time learning and experiencing in our school farm and gardens, make hand-built and bisque-fired pottery, explore exciting missions around the universe in our Space Center!

5 Mindfulness Tools for SEL

If the purpose of education is to prepare young people to lead enriched lives as members of society, then we really must ask the question, "What does it take to lead such a life? With this toolkit, you'll be able to get a glimpse at how the five core competencies of Social and Emotional Learning can be practiced and cultivated.

Please Leave a Google Review!

Have you had a great year? Please leave us a stellar (meaning 5 star!) Google review. This really helps our new families know what great things they can expect. Thank you! We look forward to seeing you next year!

UNLOCKING CHILDREN'S MATH POTENTIAL

Our math specialist typed up a summary of this amazing article for our Canyon Grove parents. If, as parents, we could gain confidence in our math teaching skills and even make peace with our own feelings about math, it would help many of our students progress. We are so excited next school year to be offering an ongoing series for parents to strengthen their math teaching skills. We hope you will join us! In the meantime, please read through the summary of this article by a leader in math education, Professor Jo Boaler, and, if needs be, make friends with math. 😊

-Rebecca Harrison, Director of Academics

Why Venting Doesn't Work

Venting is something many people turn to, but it doesn't solve your problems. [Read more here!](#)

TIME IS RUNNING OUT!!!

Our Mathspace pilot is almost full! Contact alyson.rummler@canyongrove.com if you want to have your students participate in the Mathspace pilot!

Science Bee Winners

We were impressed with the participants of this year's Science Bee! We had a great time showing off our science knowledge and skills. [Click here for a list of winners!](#)
