CGA Online Resource Library

We're excited to introduce you to our library system which integrates our regular library with our resource library inventory. **You will be able to browse and reserve materials online from the comfort and safety of your own home!** You can log in to the library interface at https://canyongrove.goalexandria.com. To sign into your student's account, contact your ES to request Alexandria access. Your student's particular login information will be available through Boost once the request has been processed.

Please Note: You can make your password more secure by changing it in your account settings which can be found when you click "Status." We encourage you to do this.
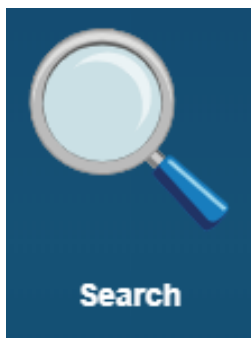

Here is a handy outline of some of the major features of the interface:

 Use this icon to navigate to the main screen no matter what landing page you are on.
 Use this icon to find general answers to questions about using Alexandria. If you'd like more detailed info about anything mentioned below, search here first.

 Search

This valuable tool is a great place to quickly target specific topics of interest to your student. Type in a search term based on subject area, author/maker, or other term of interest in the Smart Search toolbar at the top of the page. Clicking the orange carrot on the side of a specific item will show you additional information about the item and will give you special options in the right hand corner of the item page.

Holds

This icon allows you to place a hold on the item. Holds can be placed on items in stock for fast delivery or can place a hold on items currently checked out when the next copy of the item becomes available. You may hold up to 5 items at a time per student. Note that curriculum information is available for browsing, but holds cannot be placed on curriculum. Contact your ES to coordinate/place your curriculum requests.

Lists

This icon allows you to place the item on a list for later reference. Use this feature to store items you might be interested in eventually placing a hold on. You can create different lists to better organize items by topic, maker, etc.
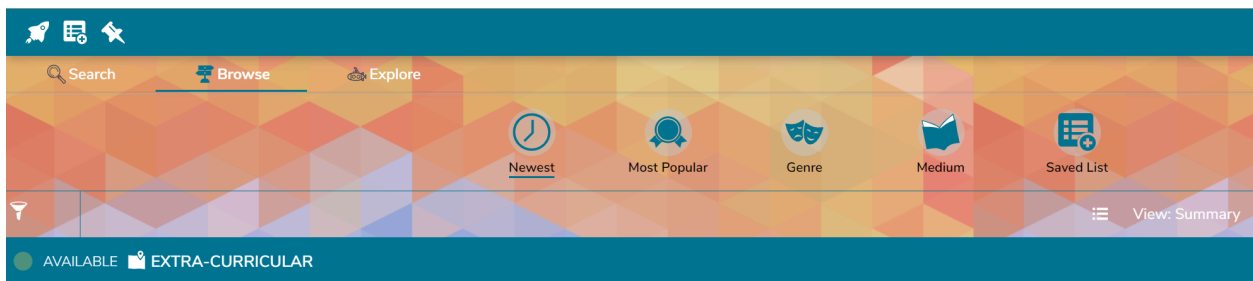

★★★★★ Ratings

If you click this icon, you can add a rating and/or review of the item. If you have experience with any of the items in our library, please use this option to share your feedback with other families.

[Browse](#)

This tool is great for quick viewing of items. It features several different view options including a simple summary view. Click an item's picture to view more info and to easily place a hold or add it to one of your lists.

Status

This tool allows you to access all your student's personal info. You can update account info, check and change your current holds, find your lists, and see your student's history here among other things. You can also find due date info here for each item checked out. Just click the arrow wheel next to each item to renew it.

Check back often to see what's new!
